

Photography & Videography Policy

General

All students must complete a photo/video waiver in order to take part in the class. If the student has **not** given consent, under no circumstances will their image or name be used in any of Shauna Olivia Studios' social media, advertisements or website. If however, a student **has** given consent, their image may be used on our social media, advertisements or website. We will not use specific names, unless authorised by the parent/guardian and if we have advertisements or any form of publicity that includes a central image of the student, we will always ask for authorisation from the parent/guardian.

Showcases

On show performances, we may have a professional videographer that will be recording the production. This video is property of Shauna Olivia Studios and will be available for each student to purchase. Under no circumstances should this DVD be copied or resold. Please bare this in mind when agreeing to take part in our showcases. If a student does not consent to being on video, they will not take part in these specific showcases. Not all of our performances are recorded, so there will be opportunities for all students to performance on stage.

Storage

Any photographs or videos, for either marketing purposes or training purposes, are stored on Shauna Olivia Studios secure external hard drive and do not leave the schools registered address. This is to ensure the privacy and protection of all students. Please see our Privacy Policy for more information.
